 - 8" x 3" Recommended for 12+YRS/Adult
 - 6.5" x 3" Recommended for kids 3 -12 YRS/Child
- \$10.00 each, quantity pricing available
- 25 piece minimum
- MADE IN USA

Face masks are a part of our daily lives now that the Center for Disease Control and Prevention highly recommends wearing one in crowded public places. State officials have also begun requiring all employees of customer facing businesses, office-based businesses, nonprofits and manufacturers must wear cloth face coverings.

Face Mask Description:

Our double layered face masks provide protection against dust and pollutants and are made with soft, breathable fabric for a comfortable and secure fit.

- Customize with your logo/design or advertise a message in vibrant color!
- 2 Layers
 - Outer layer - satin blend for vibrant color and durability
 - Inner layer - 100% cotton, 350 thread count
- Elastic loop style
- Soft, high-end fabric for face comfort
- Dust resistant for outdoor activities
- Easy to wash and reusable

Use During

Going out in public, grocery stores, pharmacies, crowded areas, outdoor activities, walking & hiking, house cleaning, dusting, etc.

Wash Directions

1. Wash mask between each use for sanitary purposes
2. Hand wash or machine wash using hot water with regular detergents
3. Air dry or machine dry completely on hot setting before next use
4. When washing isn't an option, an alternative method to sanitize your mask is to use an iron with a high heat steam setting

Additional Information

- CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), especially in areas of significant community-based transmission. Simple cloth face coverings can slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others.
- The cloth face coverings recommended are not surgical masks or N-95 respirators. Those are critical supplies that must continue to be reserved for healthcare workers and other medical first responders, as recommended by current CDC guidance.
